Psychiatrická starostlivosť v SR 2005

Psychiatric care
in SR 2005

Ročník 2006
ZŠ-4/2006

Contentt

Introduction	11
Evolution of bed fund indicators in domain of psychiatry, gerontopsychiatry and medicine of substance related addiction	13
Network of health facilities in domain of psychiatry, gerontopsychiatry and medicine of substance related addiction by counties	13
Outpatient units in psychiatric facilities	14
Antialcoholic capturing stations	15
Activity of the specialists in outpatient units according to the number of examination	16
Review of outpatient protective treatment	16
Number of patients first time examined in psychiatric outpatient units in the monitored year	17
Number of patients ever the first time examined in psychiatric outpatient units in the monitored year	19
Number of examinations in psychiatric outpatient units according to the diagnosis	21
Hospitalized patients in psychiatric facilities by gender, age, and territory	22
Hospitalized patients in psychiatric facilities by gender, age, and territory – not discharged in the monitored year	28
Hospitalized patients in psychiatric facilities by gender, diagnosis group, and territory – discharged in the monitored year	32
Hospitalized patients in psychiatric facilities by gender, diagnosis group, and territory – not discharged in the monitored year	36
Repeatedly hospitalized patients in psychiatric facilities by gender, period of previous hospitalization, and territory – discharged and not discharged in the monitored year	40
Hospitalized patients in psychiatric facilities by gender, period of hospitalization, and territory – discharged in the monitored year	42
Hospitalized patients in psychiatric facilities by gender, age, and territory – dead in the monitored year	44
Hospitalized patients in psychiatric facilities by gender, age, and territory – dead in the monitored year	46
Hospitalized patients in psychiatric facilities by age, gender, and diagnosis group – discharged and not discharged in the monitored year	50

Hospitalized patients first time in life and first time in year in psychiatric facilities by age, gender, and diagnosis group	52
Hospitalized patients in psychiatric facilities by diagnosis group, gender, and admission	54
Repeatedly hospitalized patients in psychiatric facilities by diagnosis group, gender, and period from previous hospitalization	55
Contact with this health facility of hospitalized patients in psychiatric health facilities by groups of diagnoses, and gender	56
Hospitalized patients in psychiatric facilities by gender, diagnosis group, and territory of permanent residence – at the age till 15	58
Hospitalized patients in psychiatric facilities by gender, diagnosis group, and territory of permanent residence – at the age from 15 to 17	62
Hospitalized patients in psychiatric facilities by gender, diagnosis group, and territory of permanent residence – at the age from 18 to 59	66
Hospitalized patients in psychiatric facilities by gender, diagnosis group, and territory of permanent residence – at the age of 60 and more	74
Working status of hospitalized patients in psychiatric health facilities first time at all, and first time in monitored year by gender and age groups	82
Working status of hospitalized patients in psychiatric health facilities first time at all, and first time in monitored year by gender and groups of psychiatric diagnoses	84
Hospitalized patients in psychiatric facilities ever first time and first time in the monitored year by the family status, gender, and age groups	86
Hospitalized patients in psychiatric facilities ever first time and first time in the monitored year by the family status, gender, and diagnosis groups	87
Hospitalized patients in psychiatric facilities ever first time and first time in the monitored year by the education level, gender, and age groups	88
Hospitalized patients in psychiatric facilities ever first time and first time in the monitored year by the education level, gender, and diagnosis groups	90
Care (psychiatric) after discharge/transfer of hospitalized patients with organic mental diseases including symptoms (F00 – F09) in psychiatric health facilities by gender in territorial split of health facility	92
Care (psychiatric) after discharge/transfer of hospitalized patients with mental and behavioral disorders caused by use (usage) of alcohol (F10) in psychiatric health facilities by gender in territorial split of health facility	96
Care (psychiatric) after discharge/transfer of hospitalized patients with mental and behavioral disorders caused by use (usage) of psychoactive substances (F11 – F19) in psychiatric health facilities by gender in territorial split of health facility	102

Care (psychiatric) after discharge/transfer of hospitalized patients with schizophrenia, schisotypal and delusional disorders (F20 – F29) in psychiatric health facilities by gender in territorial split of health facility	108
Care (psychiatric) after discharge/transfer of hospitalized patients with mood [affective] disorders (F30 – F39) in psychiatric health facilities by gender in territorial split of health facility	112
Care (psychiatric) after discharge/transfer of hospitalized patients in psychiatric health facilities by gender in psychiatric health facilities by groups of psychiatric diagnoses and gender	116
Hospitalized patients in psychiatric facilities by diagnosis groups, gender, lenght of stay discharged in the monitored year	118
Care (psychiatric) after discharge/transfer of hospitalized patients in psychiatric health facilities discharge/transfer and gender	119
Hospitalized patients in psychiatric facilities by age groups, gender, and diagnosis groups	121
Hospitalized patients in psychiatric facilities by age groups, gender, and diagnosis groups	123
Verbal expression of diagnoses (ICD-10) used in publication	125
Codes of regions SR	126

Introduction

Since 2000 the National Health Information Center secures collection and processing data not only from the field of Ministry of Health, but also from Ministries of Interior, Transportation, Justice, and Defense.

The base for processing of statistical data, which are mentioned in publication, was the Yearly Report about Activity of Psychiatric Ward of Hospital, Psychiatric Hospital and Psychiatric Sanatorium L (MH SR) 9-01, the Yearly Report about Activity of Psychiatric Outpatients' Departments A (MH SR) 4-01 and the Statistical Leaflet of a Patient Hospitalized in a Psychiatric Institution Z (MH SR) 3-12.

Psychiatric care in 2005 was provided by facilities of residential care, 369 psychiatric out-patient units, as well as 1 antialcoholic intercepting station (including health facilities of other fields).

Bed fund in domain of psychiatry, gerontopsychiatry and medicine of substance related addiction represented 4 502 beds with 77,0 % utilization. 15,7 beds were allocated to one physician post, and the average length of stay was 32,7 day.

The antialcoholic intercepting station had 5 places.

Number of physician posts in 2005 was 286,98 in residential facilities, and 291,74 in ambulatory facilities.

There were 1 548 319 examinations in psychiatric out-patient facilities in 2005, out of which 319 981 for affective disorders (F30 – F39). The antialcoholic intercepting station treated 290 persons.

VÝVOJ UKAZOVATEĽOV POSTELOVÉHO FONDU V ODBORE PSYCHIATRIA, GERONTOPSYCHIATRIA A MEDICÍNA DROGOVÝCH ZÁVISLOSTÍ
